LHSAA SUBSTANCE ABUSE/MISUSE CONTRACT AND CONSENT FORM

This form must be completed and signed and kept on file with the school and is subject to inspection by the LHSAA Rules Compliance Team.

As an LHSAA athlete, I, _____, agree to avoid the abuse or misuse of legal or illegal substances, including anabolic steroids and other performance enhancing drugs. I hereby grant permission to be tested for substance abuse/misuse as a participant in any LHSAA sports program. I furthermore agree to cooperate by providing a urine or hair specimen for testing upon the request of my principal. I understand that should my specimen indicate the abuse or misuse of legal or illegal substances, I will be subject to action specified in my School Drug Policy for Student Athletes.

I, _____, parent/guardian of the undersigned student-athlete, individually, and on behalf of my child, do hereby grant permission for and consent to said child being tested for substance abuse/misuse in accordance with his/her School Drug Policy for Student-Athletes and I understand that if any specimen taken from him/her indicates abuse or misuse of legal or illegal substances, including anabolic steroids and other performance enhancing drugs, he/she will be subject to action specified in the School Drug Policy for Student-Athletes for his/her school.

Notes: Rule 1.9 of the LHSAA By-Laws, states that this contract shall remain in effect for the remainder of the student's eligibility. This means the contract only has to be signed once by both the student and his/her parent or guardian but the terms remain in effect for the student's entire high school career.

According to Rule 1.9.1 of the LHSAA By-Laws, without the signature of the student athlete and his/her parent/guardian, the student is ineligible to participate in interscholastic athletic contests at all levels of play in all LHSAA sports at all LHSAA schools until compliance with Rule 1.9.1 is obtained from both parties.

Any student participating in an interscholastic athletic contest(s) without a properly signed contract shall be classified as an ineligible student and both the student and school shall be penalized according to Rule 1.9.1.

Signature of the LHSAA's contract does not necessarily mean the student athlete will be tested. Federal courts have consistently ruled participation in high school athletics is a privilege, not an educational right.

CONCUSSION

A FACT SHEET FOR STUDENT-ATHLETES

What is a concussion?

A concussion is a brain injury that:

- Is caused by a blow to the head or body.
 - From contact with another player, hitting a hard surface such as the ground, ice or floor, or being hit by a piece of equipment such as a bat, lacrosse stick or field hockey ball.
- Can change the way your brain normally works.
- Can range from mild to severe.
- Presents itself differently for each athlete.
- Can occur during practice or competition in ANY sport.
- Can happen even if you do not lose consciousness.

How can I prevent a concussion?

Basic steps you can take to protect yourself from concussion:

- Do not initiate contact with your head or helmet. You can still get a concussion if you are wearing a helmet.
- Avoid striking an opponent in the head. Undercutting, flying elbows, stepping on a head, checking an unprotected opponent, and sticks to the head all cause concussions.
- Follow your athletics department's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.
- Practice and perfect the skills of the sport.

What are the symptoms of a concussion?

You can't see a concussion, but you might notice some of the symptoms right away. Other symptoms can show up hours or days after the injury.

Concussion symptoms include:

- Amnesia.
- Confusion.
- Headache.
- Loss of consciousness.
- Balance problems or dizziness.
- Double or fuzzy vision.
- Sensitivity to light or noise.
- Nausea (feeling that you might vomit).
- Feeling sluggish, foggy or groggy.
- Feeling unusually irritable.
- Concentration or memory problems (forgetting game plays, facts, meeting times).
- Slowed reaction time.

Exercise or activities that involve a lot of concentration, such as studying, working on the computer, or playing video games may cause concussion symptoms (such as headache or tiredness) to reappear or get worse.

What should I do if I think I have a concussion?

Don't hide it. Tell your athletic trainer and coach. Never ignore a blow to the head. Also, tell your athletic trainer and coach if one of your teammates might have a concussion.

Sports have injury timeouts and player substitutions so that you can get checked out.

Report it. Do not return to participation in a game, practice or other activity with symptoms. The sooner you get checked out, the sooner you may be able to return to play.

Get checked out. Your team physician, athletic trainer, or health care professional can tell you if you have had a concussion and when you are cleared to return to play. A concussion can affect your ability to perform everyday activities, your reaction time, balance, sleep and classroom performance.

Take time to recover. If you have had a concussion, your brain needs time to heal. While your brain is still healing, you are much more likely to have a repeat concussion. In rare cases, repeat concussions can cause permanent brain damage, and even death. Severe brain injury can change your whole life.

**It's better to miss one game than the whole season.
When in doubt, get checked out.**
